

REQUEST FOR A RE-SCORE OR RE- INSPECTION

GENERAL INFORMATION

Re-score (B Grade Scores of 80 to 89) Fee = \$157.00

A Letter Grade Card will remain valid until the Health Official completes the next routine inspection, re-score, or re-inspection.

A re-score inspection may be requested by a food facility that receives a "B" grade on an official routine inspection. This inspection addresses violations noted on the previous inspection report and any additional violations noted during the inspection. There is no guarantee that the facility will receive a higher grade or score. This request is optional. The operator may wish to improve the grade but does not want to wait until the next routine inspection. These inspections are unannounced.

The food facility must complete this form and pay the re-score inspection fee prior to the inspection. Only one re-score inspection may be conducted per calendar year.

Re-inspection (C Grade Scores of 70 to 79) Fee = \$163.00

The food facility must correct the violations on the inspection and submit a written request for a re-inspection to the Environmental Health Division within 30 days to avoid closure. The inspector will complete the re-inspection within ten (10) County business days after receiving the written request and fee. Facilities that do not receive at least a "B" grade on the re-inspection may be immediately closed and remain closed until at least a "B" grade is achieved on a re-inspection.

Closure (Scores below 70) Fee = \$163.00

If a food facility receives a score below seventy (70), no grade will be issued. A Closure Notice will be posted by the health inspector and the facility will be closed for a period of no less than 24-hours. After the minimum 24-hour closure period, a reopening inspection to determine that all major violations have been corrected, will be required before the facility is able to reopen. The facility must submit a written re-inspection request in order for the reopening inspection to be performed. The re-inspection will be conducted within ten (10) business days after receiving the written request. The facility must obtain at least a "B" grade or will be subject to permit suspension and closure.

Complete the following information and submit by mail, email, fax or in person to Imperial County Environmental Health Division.
